Please provide a rating by placing an X in the appropriate response for each question.

Use the following system to rate the quality of the application content:
0 = absent: information absent
1 = marginal: missing key information or description
2 = acceptable: provides some information but not overly informative
3 = good: provides the majority of key information
4 = exceptional: informative and comprehensive

A. Referencing (8 points)

	absent 0	marginal 1	acceptable 2	good 3	exceptional 4
1. Literature relevant and complete					
2. Shows good understanding of topic (e.g. no omissions or conceptual errors, includes critical evaluation)					
3. Effectively summarises the topic and identifies any issues or arguments					
4. Written as an authoritative review					
5. Review written concisely					
6. References sufficient and details included in reference list					
7. Coherent and readable (i.e. written in logical sequence, use of clear prose)					
8. Use of English, spelling, punctuation and grammar
